

ENDOSCOPE CAPABILITIES

Product Design, Development, and Scalable Manufacturing

Handle Integration

Injection Molding | Over Molding
Tooling & Fixture Fabrication

CMOS Design and Integration

High Resolution Imaging | Cost Effective Options
Strategic Partnership

Cable & Fine Wiring Assembly

Potting & Soldering | Wire Termination

Electrical & Device Performance Testing

Hi Pot | Continuity Testing | Leak Testing

Electrical Connector Integration

Custom Over Molding | Strain Relief Design

Optics Design and Integration

Camera (including chip on a tip) Development
ISP and Light box Integration | Anti-Reflective Coating
Lens Polishing & Grinding

Tube Design & Fabrication

Laser Cutting | Laser Marking
Expanding & Forming
